

Chimpanzees

Sharing

Chimpanzees use tools. Four chimpanzees need to share three tools.

They have an anvil, a rock, and a stick. Help them decide who gets to use what and when!

NOTE: A chimpanzee cannot use a stick with any other tools at the same time.

Chimpanzee A: Needs the **rock** for **4 minutes**.

Chimpanzee B: Needs the **stick** for **3 minutes** and the **rock** for **7 minutes**.

Chimpanzee C: Needs both the **rock** and the **anvil** for **4 minutes at the same time**.

Chimpanzee D: Needs the **stick** for **8 minutes** and the **anvil** for **6 minutes**.
